## William A. Dobak

A Text-book on Applied Mechanics Andrew Jamieson,1897

*Text book of surgical operations v.1, 1915* Fedor Krause,1915

**Freedom by the Sword** William A. Dobak,2011 From late 1862 to the spring of 1865, the federal government accepted more than 180,000 black men as soldiers, something it had never done before on such a scale. Known collectively as the United States Colored Troops and organized in segregated regiments led by white officers, some of these soldiers guarded army posts along major rivers; others fought Confederate raiders to protect Union supply trains; and still others took part in major operations like the siege of Petersburg and the battle of Nashville. After the war, many of the black regiments garrisoned the former Confederacy to enforce federal Reconstruction policy. This book tells the story of these soldiers' recruitment, organization, and service.

**A Text Book of Assaying** Cornelius Beringer,1897

**Text-Linguistics and Biblical Hebrew** David Allan Dawson,2015-01-29 Modern linguistics is a relative newcomer in the scientific world, and text-linguistics, or discourse analysis, is one of its youngest disciplines. This fact has inclined many toward scepticism of its value for the Hebraist, yet much benefit is thereby overlooked. In this work, the author examines recent contributions to Hebrew text-linguistics by Niccacci, Andersen, Eskhult, Khan, and Longacre, evaluating them against a twofold standard of theoretical and methodological integrity, and clarity of communication. An extensive introduction to one particularly promising model of text analysis (from Longacre's tagmemic school) is given, and a step-by-step methodology is presented. Analyses according to this model and methodology are given of seven extended text samples, each building on the findings of the previous analyses: Judg. 2; Lev. 14.1-32; Lev. 6.1-7.37; parallel instructions and historical reports about the building of the Tabernacle, from Exodus 25-40; Judg. 10.6-12.7; and the book of Ruth in its entirety. Considerable attention is given to the question of text-linguistics and reported speech.

**A Text-book on Steam and Steam Engines** Andrew Jamieson,1897

*A Text-book on Roofs and Bridges...* Mansfield Merriman, Henry Sylvester Jacoby, 1894

**A Text-book of Ore and Stone Mining** Clement le Neve Foster, 1897

**A Text-book of Surgery** George Emerson Brewer, 1909

**Foster Biblical Scholarship** Frank Ritchel Ames, Charles William Miller, 2010 This collection of essays describes the pursuit of biblical scholarship in the twenty-first century and explores the implications of modern and postmodern approaches, collaborative and emancipative models of graduate and undergraduate education, and public and political uses of the Bible. Special attention is given to the role of the Society of Biblical Literature. Essays by nine SBL presidents appear in the collection, which honors SBL Executive Director Emeritus Kent Harold Richards.

*A Text-book on Gas, Oil and Air Engines* Bryan Donkin, 1896

**Pop Music and Easy Listening** Stan Hawkins, 2017-07-05 What defines pop music? Why do we consider some styles as easier listening than others? Arranged in three parts: Aesthetics and Authenticity - Groove, Sampling and Industry - Subjectivity, Ethnicity and Politics, this collection of essays by a group of international scholars deals with these questions in diverse ways. This volume prepares the reader for the debates around pop's intricate historical, aesthetic and cultural roots. The intellectual perspectives on offer present the interdisciplinary aspects of studying music and, spanning more than twenty-five years, these essays form a snapshot of some of the authorial voices that have shaped the specific subject matter of pop criticism within the broader field of popular music studies. A common thread running through these essays is the topic of interpretation and its relation to conceptions of musicality, subjectivity and aesthetics. The principle aim of this collection is to demonstrate that pop music needs to be evaluated on its own terms within the cultural contexts that make it meaningful.

*Archaeological Gazetteer of Afghanistan* Warwick Ball, 2019-07-11 Since its publication in 1982, the *Archaeological Gazetteer of Afghanistan* has become the main reference work for the archaeology of Afghanistan, and the standard sites and monuments record for the region; archaeological sites are now referred to under their Gazetteer catalogue number as routine in academic literature, and the volume has become a key text for developing research in the area. This revised and updated edition has been significantly expanded to incorporate new field-work and discoveries, as well as older field-work more recently published, and presents new cases of synthesis and unpublished material from private archives. New discoveries include the Rabatak inscription detailing the genealogy of the Kushan kings, a huge archive of Bactrian documents, Aramaic documents from Balkh on the last days of the Persian empire, a new Greek inscription from Kandahar, two tons of coins from Mir Zakah, a Sasanian relief of Shapur at Rag-i Bibi, a Buddhist monastic 'city' at Kharwar, new discoveries of Buddhist art at Mes Aynak and Tepe Narenj, and a newly revealed city at the Minaret of Jam. With over 1500

catalogue entries, supplemented with concordance material, site plans, drawings, and detailed maps prepared from satellite imagery, the *Archaeological Gazetteer of Afghanistan: Revised Edition* is the most comprehensive reference work on the archaeology and monuments of the region ever undertaken. Cataloguing all recorded sites and monuments from the earliest times to the Timurid period, this volume will be an invaluable contribution to the renewed interest in Afghanistan's cultural heritage and an essential resource for students and researchers.

**Novel Images** Peter Reynolds, 2013-07-18 Written specifically with the student in mind and focusing on a number of well-known texts, including *Les Liaisons Dangereuses*, *Nicholas Nickleby*, *Nice Work* and *The Color Purple*, the contributions in this book demonstrate how we can look critically at literary adaptations and learn to distinguish between mythical images and the reality of the process that constructed them. They argue that adaptations should not be seen as secondary or marginal, because through them we can enter into an exciting debate with the literary text itself. Originally published in 1993.

**Egyptian Solar Religion in the New Kingdom** Jan Assmann, 1995 First Published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

Social Security Law in Spain Thais Guerrero Padrón et al., 2022-04-21 Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this book describes the social security regime in Spain. It conveys a clear working knowledge of the legal mechanics affecting health care, employment injuries and occupational diseases, incapacity to work, pensions, survivors' benefits, unemployment benefits and services, and family benefits. The analysis covers the field of application, conditions for entitlement, calculation of benefits, financing, the institutional framework, and relevant law enforcement and controls. Allowances for retirees, employees, public sector workers, the self-employed, and the handicapped are all clearly explained, along with full details of claims, adjudication procedures, and appeals. Succinct yet eminently practical, the book will be a valuable resource for lawyers handling social security matters in Spain. It will be of practical utility to those both in public service and private practice called on to develop and to apply social security law and policy, and of special interest as a contribution to the comparative study of social security systems.

**Political Theologies in Orthodox Christianity** Kristina Stoeckl, Ingeborg Gabriel, Aristotle Papanikolaou, 2017-06-15 This book gathers a wide range of theological perspectives from Orthodox European countries, Russia and the United States in order to demonstrate how divergent the positions are within Orthodox Christianity. Orthodoxy is often considered to be out-of-sync with contemporary society, set apart in a world of its own where the church intertwines with the state, in order to claim power over the populace and ignore the individual voices of modern societies. As a collective, these essays present a different understanding of the relationship of Orthodoxy to secular politics; comprehensive, up-to-date and highly relevant to politically understanding today's world. The contributors present their views and arguments by drawing lessons from the

past, and by elaborating visions for how Orthodox Christianity can find its place in the contemporary liberal democratic order, while also drawing on the experience of the Western Churches and denominations. Touching upon aspects such as anarchism, economy and political theology, these contributions examine how Orthodox Christianity reacts to liberal democracy, and explore the ways that this branch of religion can be rendered more compatible with political modernity.
