Research Anthology on Bilingual and Multilingual Education Management Association, Information

Resources,2021-10-29 Given the boost in global immigration and migration, as well as the emphasis on creating inclusive classrooms, research is turning to the challenges that teachers face with the increasing need for bilingual and multilingual education. The benefits of bilingual education are widespread, allowing students to develop important cognitive skills such as critical thinking and problem solving as well as opening further career opportunities later in life. However, very few resources are available for the successful practice and implementation of this education into the curriculum, with an even greater lack of appropriate cultural representation in the classroom. Thus, it is essential for educators to remain knowledgeable on the emerging strategies and procedures available for making bilingual and multilingual education successful. The Research Anthology on Bilingual and Multilingual Education is a comprehensive reference source on bilingual and multilingual education that offers the latest insights on education strategy and considerations on the language learners themselves. This research anthology features a diverse collection of authors, offering valuable global perspectives on multilingual education. Covering topics such as gamification, learning processes, and teaching models, this anthology serves as an essential resource for professors, teachers, pre-service teachers, faculty of K-12 and higher education, government officials, policymakers, researchers, and academicians with an interest in key strategy and understanding of bilingual and multilingual education.

Language, Learning, and Culture in Early Childhood Ann Anderson, Jim Anderson, Jan Hare, Marianne McTavish, 2015-12-07 Complex factors affect young children and their families in today's increasingly diverse world characterized by globalization, the transnational movement of people, and neo-liberal government policies in western and industrialized countries. This book focuses on three of these factors—culture, language and learning—and how they affect children's development and learning in the context of their communities, families and schools. Taking an ecological

perspective, it challenges normative and hegemonic views of young children's language, literacy and numeracy development and offers examples of demonstrated educational practices that acknowledge and build on the knowledge that children develop and learn in culturally specific ways in their homes and communities. The authors highlight issues and perspectives that are particular to Indigenous people who have been subjected to centuries of assimilationist and colonialist policies and practices, and the importance of first or home language maintenance and its cognitive, cultural, economic, psychological and social benefits. Links are provided to a package of audio-video resources (<http://blogs.ubc.ca/intersectionworkshop/>) including key note speeches and interviews with leading international scholars, and a collection of vignettes from the workshop from which this volume was produced .

Handbook of Research on Advancing Language Equity Practices With Immigrant Communities Cardozo-Gaibisso, Lourdes, Vazquez Dominguez, Max, 2020-06-26 Research on linguistically and culturally sustaining education has recently placed increased attention on the need to rethink the field by promoting more equitable linguistic pedagogical opportunities for all students, including immigrant and newcomer youth. The Handbook of Research on Advancing Language Equity Practices With Immigrant Communities is a critical scholarly book that explores issues of linguistic and educational equity with immigrant communities around the globe in an effort to improve the teaching and learning of immigrant communities. Featuring a wide range of topics such as higher education, instructional design, and language learning, this book is ideal for academicians, teachers, administrators, instructional designers, curriculum developers, researchers, and students in the fields of linguistics, anthropology, sociology, educational policy, and discourse analysis.
