**I Hate Fairyland #17** Skottie Young, 2024-11-06 HAPPY END GAME, Part Two of Five Happy leads the army of dead Gerts from Hell, through the Inferno and into Fairyland. Gert needs allies, so the King summons a legend from Kansas who's pretty familiar with fighting off WICKED forces! Who could it be? Maybe someone who's into glittery footwear? Yellow Bricks? Any guesses? Æ

**Descended from Darwin** Joe Cain, Michael Ruse, 2009 This vol. has its origins in a conference, held October 22-23, 2004, at the Amer. Philosophical Society (APS) Library, Phila. The main focus was on evolutionary studies in America before, during, and after the famous "synthesis" period of the 1930s and 1940s. The synthesis period has been the focus of substantial new research and important new thinking. This vol. brings together 15 specialists to explore these developments and to press further. Questions shaping these essays focus on the following broad themes: Continuity and breaks across generations; Emerging narratives for the period; New research opportunities at the APS; New ideas from the research front; Placing evolutionists in the broader context of biology; and Future directions. Also includes a thoughtful intro. by Michael Ruse.

**Internet Comedy Television Series, 1997-2015** Vincent Terrace, 2016-02-25 Created around the world and available only on the web, Internet television series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through crowd-funding, they are filmed with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The fourth in a series covering Internet TV, this book takes a comprehensive look at 1,121 comedy series produced exclusively for online audiences. Alphabetical entries provide websites, dates, casts, credits, episode lists and storylines.

**Hiroshima Nagasaki** Paul Ham, 2014-08-05 A history and analysis of the WWII nuclear bombings of Japan from "a master of engrossing and exciting narrative" (Los Angeles Review of Books). In this harrowing history of the Hiroshima and Nagasaki bombings, Paul Ham argues against the use of nuclear weapons, drawing on extensive research and hundreds of

interviews to prove that the bombings had little impact on the eventual outcome of the Pacific War. More than 100,000 people were killed instantly by the atomic bombs, mostly women, children, and the elderly. Many hundreds of thousands more succumbed to their horrific injuries later, or slowly perished of radiation-related sickness. Yet American leaders claimed the bombs were “our least abhorrent choice” —and still today most people believe they ended the Pacific War and saved millions of American and Japanese lives. In this gripping narrative, Ham demonstrates convincingly that misunderstandings and nationalist fury on both sides led to the use of the bombs. Ham also gives powerful witness to its destruction through the eyes of eighty survivors, from twelve-year-olds forced to work in war factories to wives and children who faced the holocaust alone. Hiroshima Nagasaki presents the grisly unadorned truth about the bombings, blurred for so long by postwar propaganda, and transforms our understanding of one of the defining events of the twentieth century. Praise for Hiroshima Nagasaki “Moral anger drives Mr. Ham . . . Ordinary Japanese, Mr. Ham believes, were less emperor-worshipping fanatics than victims of an authoritarian elite that prolonged the war with no regard for their hardships.” —The Wall Street Journal “Ham presents a forceful argument that the bombing was excessive and unjustified. . . . In this sweeping and comprehensive history, Ham details the geopolitical considerations and huge egos behind evolving theories of warfare. . . . But most powerful are the eyewitness accounts of 80 survivors, ordinary people caught up in the events of war.” —Booklist (starred review)

**Empty Mills** Timothy J. Minchin,2012-12-16 With the economy struggling, there has been much discussion about the effects of deindustrialization on American manufacturing. While the steel and auto industries have taken up most of the spotlight, the textile and apparel industries have been profoundly affected. In Empty Mills, Timothy Minchin provides the first book length study of how both industries have suffered since WWII and the unwavering efforts of industry supporters to prevent that decline. In 1985, the textile industry accounted for one in eight manufacturing jobs, and unlike the steel and auto industries, more than fifty percent of the workforce was women or minorities. In the last four decades over two million jobs have been lost in the textile and apparel industries alone as more and more of the manufacturing moves overseas. Impeccably well researched, providing information on both the history and current trends, Empty Mills will be of importance to anyone interested in economics, labor, the social historical, as well as the economic significance of the decline of one of America’s biggest industries.

**The Dragon's War** Maochun Yu,2013-07-31 Making full use of significant new sources in Chinese-language materials, U.S. Naval Academy professor Maochun Yu provides Western readers with the first detailed account of military and intelligence operations conducted inside China by foreign powers between 1937 and 1945. He also addresses the profound impact of these operations upon China's nationalism, wartime politics, and overall military campaigns. Arguing that operations by the USSR, the United States, Britain, and France, in particular, challenged the authority and legitimacy of the Chinese nationalist government, he illustrates how the failure of the Nationalist Government under Chiang Kai-shek to control these operations contributed to its demise following World War II. This provocative work unveils like never before the extraordinary intrigue, command and operational manipulations, international espionage, and politics surrounding military and intelligence operations in wartime China among the allies. It covers such topics as foreign military aid programs to China; the Chinese secret police's massive joint intelligence organization with the U.S. Navy; special intelligence initiatives conducted by the British, Free French, and Americans; secret British and American dealings with the Chinese Communists; America's first covert overseas military operation (the Flying Tigers); and Soviet and American military personnel in the China theater. The author points to the remarkable political and military ramifications that these operations had in China, including the inadvertent creation of conditions that allowed the rise of Communist China. With its implications on the world scene today, such an important new perspective of China during its war against Japan will appeal to a general audience as well as to students of World War II and specialists in the military and intelligence communities.
