Have you ever obsessed over the size of your thighs while eating dessert, all the while saying you'll work out extra tomorrow? Or spent endless hours wondering why you have to bear the brunt of other people's insecurities? I mean, after all, I'm pretty great. Why cope with insecurities I don't already have? Big Appetites Christopher Boffoli, 2013-09-10 Welcome to a world where little people have big personalities. A world that's upside down and yet weirdly, wonderfully real. A world where Lilliputian thieves poach strawberry seeds. Where it takes a guy with a jackhammer to pop open pistachios. Where skaters fall into a crack in the crème brûlée, and teddy bear cookies congregate with evil intent. Marrying inspired photographs of real food and tiny people with equally inspired captions, photographer Christopher Boffoli creates a smart, funny, quirky vision of what it means to play with your food. The scenes are hilarious and outlandish— a farmer shovels a pasture full of cow pies, aka chocolate chips; hikers pause at a rest stop to take in a magical mushroom forest. And the captions surprise with their cleverness and emotional truth. Of the proudly gesticulating little chef amid the macarons: “Right on cue, Philippe stepped up to take all of the credit.” Of the tiny bather up to her chin in waves of blue Jell-O: “In her continuing search for a husband, Gladys decided it was best to put

herself in situations where she needed to be rescued.” Of the broad-shouldered technician spreading condiments on a hot dog: “Gary always uses too much mustard. But no one can say so. It’s a union thing.” Happiness, hope, adventure, pride, love, greed, menace, solitude—it’s our world, seen through a singularly unique and funny lens, in more than 100 scenes from breakfast through dessert.

Spam Finn Brunton,2015-01-30 What spam is, how it works, and how it has shaped online communities and the Internet itself. The vast majority of all email sent every day is spam, a variety of idiosyncratically spelled requests to provide account information, invitations to spend money on dubious products, and pleas to send cash overseas. Most of it is caught by filters before ever reaching an in-box. Where does it come from? As Finn Brunton explains in *Spam*, it is produced and shaped by many different populations around the world: programmers, con artists, bots and their botmasters, pharmaceutical merchants, marketers, identity thieves, crooked bankers and their victims, cops, lawyers, network security professionals, vigilantes, and hackers. Every time we go online, we participate in the system of spam, with choices, refusals, and purchases the consequences of which we may not understand. This is a book about what spam is, how it works, and what it means. Brunton provides a cultural history that stretches from pranks on early computer networks to the construction of a global criminal infrastructure. The history of spam, Brunton shows us, is a shadow history of the Internet itself, with spam emerging as the mirror image of the online communities it targets. Brunton traces spam through three epochs: the 1970s to 1995, and the early, noncommercial computer networks that became the Internet; 1995 to 2003, with the dot-com boom, the rise of spam's entrepreneurs, and the first efforts at regulating spam; and 2003 to the present, with the war of algorithms—spam versus anti-spam. *Spam* shows us how technologies, from email to search engines, are transformed by unintended consequences and adaptations, and how online communities develop and invent governance for themselves.

Scan Artist Marcia Biederman,2019-09-03 The best-known educator of the twentieth century was a scammer in cashmere. The most famous reading teacher in the world, as television hosts introduced her, Evelyn Wood had little classroom experience, no degrees in reading instruction, and a background that included work at the Mormon mission in Germany at the time when the church was cooperating with the Third Reich. Nevertheless, a nation spooked by Sputnik and panicked by paperwork eagerly embraced her promises of a speed-reading revolution. Journalists, lawmakers and two US presidents lent credibility to Wood's claims of turbocharging reading speeds through a method once compared to the miracle at Lourdes. Time magazine reported Woods grads could polish off Dr. Zhivago in one hour; a senator swore that Wood's method had boosted his reading speed to more than ten thousand words per minute. But science showed that her method taught only skimming, with disastrous effects on comprehension—a fact Wood was aware of from early in her career. Fudging test results, and squelching critics, she founded a company that enrolled half a million. The course's popularity endured even as evidence of its shortcomings continued to accumulate. Today, as apps and online courses attempt to spark a

speed-reading revival, this engaging look at Wood's rise from mission worker to marketer exposes the pitfalls of embracing a con artist's worthless solution to imaginary problems.

I Love Jesus, But I Want to Die Sarah J. Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

Priceless Robert K. Wittman, John Shiffman, 2011-06-07 The Wall Street Journal called him “a living legend.” The London Times dubbed him “the most famous art detective in the world.” In *Priceless*, Robert K. Wittman, the founder of the FBI’s Art Crime Team, pulls back the curtain on his remarkable career for the first time, offering a real-life international thriller to rival *The Thomas Crown Affair*. Rising from humble roots as the son of an antique dealer, Wittman built a twenty-year career that was nothing short of extraordinary. He went undercover, usually unarmed, to catch art thieves, scammers, and black market traders in Paris and Philadelphia, Rio and Santa Fe, Miami and Madrid. In this page-turning memoir, Wittman fascinates with the stories behind his recoveries of priceless art and antiquities: The golden armor of an ancient Peruvian

warrior king. The Rodin sculpture that inspired the Impressionist movement. The headdress Geronimo wore at his final Pow-Wow. The rare Civil War battle flag carried into battle by one of the nation's first African-American regiments. The breadth of Wittman's exploits is unmatched: He traveled the world to rescue paintings by Rockwell and Rembrandt, Pissarro, Monet and Picasso, often working undercover overseas at the whim of foreign governments. Closer to home, he recovered an original copy of the Bill of Rights and cracked the scam that rocked the PBS series *Antiques Roadshow*. By the FBI's accounting, Wittman saved hundreds of millions of dollars worth of art and antiquities. He says the statistic isn't important. After all, who's to say what is worth more --a Rembrandt self-portrait or an American flag carried into battle? They're both priceless. The art thieves and scammers Wittman caught run the gamut from rich to poor, smart to foolish, organized criminals to desperate loners. The smuggler who brought him a looted 6th-century treasure turned out to be a high-ranking diplomat. The appraiser who stole countless heirlooms from war heroes' descendants was a slick, aristocratic con man. The museum janitor who made off with locks of George Washington's hair just wanted to make a few extra bucks, figuring no one would miss what he'd filched. In his final case, Wittman called on every bit of knowledge and experience in his arsenal to take on his greatest challenge: working undercover to track the vicious criminals behind what might be the most audacious art theft of all.

Talking to Strangers Malcolm Gladwell, 2019-09-10 Malcolm Gladwell, host of the podcast *Revisionist History* and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: *The Financial Times*, *Bloomberg*, *Chicago Tribune*, and *Detroit Free Press* How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

Searching for Someday Jennifer Probst, 2013-11-26 From "one of the most exciting breakout novelists" (*USA TODAY*) comes the first novel in an irresistible new series—a spin-off of the bestselling *Marriage to a Billionaire* series—featuring a matchmaker who falls for a man who doesn't believe in love. In charming *Verily*, New York, Kate Seymour has a smashing

success with Kinnections, the matchmaking service she owns with her two best girlfriends. But Kate's more than a savvy businesswoman: She's gifted with a secret power, a jolting touch that signals when love's magic is at work. It rocked her when she picked up a strange volume of love spells in the town's used bookstore...and it zapped her again when she encountered Slade Montgomery, the hot-tempered— and hot-bodied—divorce lawyer who storms into Kinnections demanding proof that playing Cupid won't destroy his vulnerable sister, Kate's newest client. The only way to convince this cynic that she's no fraud, and that love is no mirage, is for Kate to meet his audacious challenge: find him his dream woman. Can Kate keep their relationship strictly business when her electrifying attraction nearly knocked her off her feet? Or has the matchmaker finally met her match?

The Art of Deception Kevin D. Mitnick, William L. Simon, 2011-08-04 The world's most infamous hacker offers an insider's view of the low-tech threats to high-tech security Kevin Mitnick's exploits as a cyber-desperado and fugitive form one of the most exhaustive FBI manhunts in history and have spawned dozens of articles, books, films, and documentaries. Since his release from federal prison, in 1998, Mitnick has turned his life around and established himself as one of the most sought-after computer security experts worldwide. Now, in *The Art of Deception*, the world's most notorious hacker gives new meaning to the old adage, It takes a thief to catch a thief. Focusing on the human factors involved with information security, Mitnick explains why all the firewalls and encryption protocols in the world will never be enough to stop a savvy grifter intent on rifling a corporate database or an irate employee determined to crash a system. With the help of many fascinating true stories of successful attacks on business and government, he illustrates just how susceptible even the most locked-down information systems are to a slick con artist impersonating an IRS agent. Narrating from the points of view of both the attacker and the victims, he explains why each attack was so successful and how it could have been prevented in an engaging and highly readable style reminiscent of a true-crime novel. And, perhaps most importantly, Mitnick offers advice for preventing these types of social engineering hacks through security protocols, training programs, and manuals that address the human element of security.
