Factory Girls Leslie T. Chang, 2009-08-04 An eye-opening and previously untold story, *Factory Girls* is the first look into the everyday lives of the migrant factory population in China. China has 130 million migrant workers—the largest migration in human history. In *Factory Girls*, Leslie T. Chang, a former correspondent for the Wall Street Journal in Beijing, tells the story of these workers primarily through the lives of two young women, whom she follows over the course of three years as they attempt to rise from the assembly lines of Dongguan, an industrial city in China's Pearl River Delta. As she tracks their lives, Chang paints a never-before-seen picture of migrant life—a world where nearly everyone is under thirty; where you can lose your boyfriend and your friends with the loss of a mobile phone; where a few computer or English lessons can catapult you into a completely different social class. Chang takes us inside a sneaker factory so large that it has its own hospital, movie theater, and fire department; to posh karaoke bars that are fronts for prostitution; to makeshift English classes where students shave their heads in monklike devotion and sit day after day in front of machines watching English words flash by; and back to a farming village for the Chinese New Year, revealing the poverty and idleness of rural life that drive young girls to leave home in the first place. Throughout this riveting portrait, Chang also interweaves the story of her own family's migrations, within China and to the West, providing historical and personal frames of reference for her investigation. A book of global significance that provides new insight into China, *Factory Girls* demonstrates how the mass movement from rural villages to cities is remaking individual lives and transforming Chinese society, much as immigration to America's shores remade our own country a century ago.

Factory Girls Leslie T. Chang, 2008 Chronicles the everyday world of the millions of female Chinese migrant workers who have left their homes in rural towns to find jobs in China's cities, as revealed through a two-year study of the lives of two young women, and assesses the sociological significance and global influence of this movement. 25,000 first printing.

The Chinese Typewriter Thomas S. Mullaney, 2018-10-09 How Chinese characters triumphed over the QWERTY keyboard and laid the foundation for China's information technology successes today. Chinese writing is character based, the one major world script that is neither alphabetic nor syllabic. Through the years, the Chinese written language encountered presumed alphabetic universalism in the form of Morse Code, Braille, stenography, Linotype, punch cards, word processing, and other systems developed with the Latin alphabet in mind. This book is about those encounters—in particular thousands of Chinese characters versus the typewriter and its QWERTY keyboard. Thomas Mullaney describes a fascinating series of experiments, prototypes, failures, and successes in the century-long quest for a workable Chinese typewriter. The earliest Chinese typewriters, Mullaney tells us, were figments of popular imagination, sensational accounts of twelve-foot keyboards with 5,000 keys. One of the first Chinese typewriters actually constructed was invented by a Christian missionary, who organized characters by common usage (but promoted the less-common characters for “Jesus to the common usage level). Later came typewriters manufactured for use in Chinese offices, and typewriting schools that turned out trained “typewriter girls” and “typewriter boys.” Still later was the “Double Pigeon” typewriter produced by the Shanghai Calculator and Typewriter Factory, the typewriter of choice under Mao. Clerks and secretaries in this era experimented with alternative ways of organizing characters on their tray beds, inventing an input method that was the first instance of “predictive text.” Today, after more than a century of resistance against the alphabetic, not only have Chinese characters prevailed, they form the linguistic substrate of the vibrant world of Chinese information technology. *The Chinese Typewriter*, not just an “object history” but grappling with broad questions of technological change and global communication, shows how this happened. Factory Girls Leslie T. Chang, 2010-01-01 'Head and shoulders above almost all other new books about China, this unflinching and yearningly compassionate portrait of the lives and loves of ordinary Chinese workers is quite unforgettable' Simon Winchester Every year in China millions of migrant workers leave their rural towns to find jobs in the cities. These people are the driving forces behind China's economic boom: they work very hard and for little money to make the trainers, ornaments, designer handbags and toys which we buy. Through the lives of two young women, Chang vividly portrays a world where you can lose your boyfriend and your friends with the loss of a cell phone; where lying about your age, your education, and your work experience is often a requisite for getting ahead; where a few computer or English lessons can catapult you into a completely different social class. This is a powerful and humane portrait of the forces which are shaping China. 'Astonishing . . . Heartbreaking . . . As one tool in trying to understand today's China, this is a most valuable, if troubling read' Irish Times 'Engrossing . . . An exceptionally vivid and compassionate depiction of the day-to-day dramas, and the fears and aspirations, of the real people who are powering China's economic boom' Scotsman 'Chang's elegant book is evidence that the best trips home often require a circuitous approach' Nell Freudenberger, Financial Times

Eating Bitterness Michelle Loyalka, 2013-07-26 Every year over 200 million peasants flock to China's urban centers, providing a profusion of cheap labor that helps fuel the country's staggering economic growth. Award-winning journalist Michelle Dammon Loyalka follows the trials and triumphs of eight such migrants—including a vegetable vendor, an itinerant knife sharpener, a free-spirited recycler, and a cash-strapped mother—offering an inside look at the pain, self-sacrifice, and uncertainty underlying China's dramatic national transformation. At the heart of the book lies each person's ability to "eat bitterness"—a term that roughly means to endure hardships, overcome difficulties, and forge ahead. These stories illustrate why China continues to advance, even as the rest of the world remains embroiled in financial turmoil. At the same time, *Eating Bitterness* demonstrates how dealing with the issues facing this class of people constitutes China's most pressing domestic challenge.

Patriot Number One Lauren Hilgers, 2018-03-20 NAMED ONE OF THE BEST BOOKS OF 2018 BY New York Times Critics • Wall Street Journal • Kirkus Reviews Christian Science Monitor • San Francisco Chronicle Finalist for the PEN Jacqueline Bograd Weld Biography Award Shortlisted for the J. Anthony Lukas Book Prize The deeply reported story of one indelible family transplanted from rural China to New York City, forging a life between two worlds In 2014, in a snow-covered house in Flushing, Queens, a village revolutionary from Southern China considered his options. Zhuang Liehong was the son of a fisherman, the former owner of a small tea shop, and the spark that had sent his village into an uproar—pitting residents against a corrupt local government. Under the alias Patriot Number One, he had stoked a series of pro-democracy protests, hoping to change his home for the better. Instead, sensing an impending crackdown, Zhuang and his wife, Little

Yan, left their infant son with relatives and traveled to America. With few contacts and only a shaky grasp of English, they had to start from scratch. In *Patriot Number One*, Hilgers follows this dauntless family through a world hidden in plain sight: a byzantine network of employment agencies and language schools, of underground asylum brokers and illegal dormitories that Flushing's Chinese community relies on for survival. As the irrepressibly opinionated Zhuang and the more pragmatic Little Yan pursue legal status and struggle to reunite with their son, we also meet others piecing together a new life in Flushing. Tang, a democracy activist who was caught up in the Tiananmen Square crackdown in 1989, is still dedicated to his cause after more than a decade in exile. Karen, a college graduate whose mother imagined a bold American life for her, works part-time in a nail salon as she attends vocational school, and refuses to look backward. With a novelist's eye for character and detail, Hilgers captures the joys and indignities of building a life in a new country—and the stubborn allure of the American dream.

Lost and Found John James Kennedy, Yaojiang Shi, 2019 In 1979, the Chinese government famously introduced The Single Child Policy to control population growth. Nearly 40 years later, the result is an estimated 20 million missing girls in the population from 1980-2010. In *Lost and Found*, John James Kennedy and Yaojiang Shi focus on village-level implementation of the one-child policy and the level of mutual-noncompliance between officials and rural families. Through in-depth interviews with rural parents and local leaders, they reveal that many had strong incentives not to comply with the birth control policy because larger families meant increased labor and income. In this sober exploration of China's Single Child Policy throughout the reform period, the authors more broadly show how governance by grassroots cadres with greater local autonomy has affected China in the past and the challenges for resolving center-versus-locality contradictions in governance that lie ahead.

Recreating Japanese Women, 1600-1945 Gail Lee Bernstein, 1991-07-09 In thirteen wide-ranging essays, scholars and students of Asian and women's studies will find a vivid exploration of how female roles and feminine identity have evolved over 350 years, from the Tokugawa era to the end of World War II. Starting from the premise that gender is not a biological given, but is socially constructed and culturally transmitted, the authors describe the forces of change in the construction of female gender and explore the gap between the ideal of womanhood and the reality of Japanese women's lives. Most of all, the contributors speak to the diversity that has characterized women's experience in Japan. This is an imaginative, pioneering work, offering an interdisciplinary approach that will encourage a reconsideration of the paradigms of women's history, hitherto rooted in the Western experience.

Life and Death in Shanghai Cheng Nien, 2010-12-14 A woman who spent more than six years in solitary confinement during Communist China's Cultural Revolution discusses her time in prison. Reissue. A New York Times Best Book of the Year.

The Dew Breaker Edwidge Danticat,2007-12-18 We meet him late in life: a quiet man, a good father and husband, a fixture in his Brooklyn neighborhood, a landlord and barber with a terrifying scar across his face. As the book unfolds, moving seamlessly between Haiti in the 1960s and New York City today, we enter the lives of those around him, and learn that he has also kept a vital, dangerous secret. Edwidge Danticat's brilliant exploration of the "dew breaker"--or torturer--is an unforgettable story of love, remorse, and hope; of personal and political rebellions; and of the compromises we make to move beyond the most intimate brushes with history. It firmly establishes her as one of America's most essential writers. **BONUS:** This edition includes an excerpt from Edwidge Danticat's *Claire of the Sea Light*.

Northern Girls: Life Goes On Keyi Sheng,2012-05-23 Qian Xiaohong is born into a sleepy Hunan village, where the new China rush towards development is a mere distant rumour. A buxom, naïve sixteen-year-old, she yearns to leave behind hometown scandal, and joins the mass migration to the bustling boomtown of Shenzhen. There, she must navigate dangerous encounters with ruthless bosses, jealous wives, sympathetic hookers and corrupt policemen as she tries to find her place in the ever-evolving society. Hardship and tragedy are in no short supply as her journey takes her through a grinding succession of dead end jobs. To help her through this confusing maze, Xiaohong finds solace in the close ties she makes with the other migrant girls - the community of her fellow 'northern girls' - who quickly learn to rely on each other for humour and the enjoyment of life's simple pleasures. A beautiful coming-of-age novel, *Northern Girls* explores the inner lives of a generation of young, rural Chinese women who embark on life-changing journeys in search of something better.

Son of the Revolution Liang Heng,Judith Shapiro,1984-02-12 An account of growing up during China's Great Cultural Revolution.

China Underground Zachary Mexico,2010-08 In the beginning of the twenty-first century, it is hard to imagine a place more exciting than China. The country's economy is growing by more than ten percent per year. The lives of Chinese citizens in every stratum of society are changing--indeed, the very rules that define the parameters of their lives are changing. Over a billion people are simultaneously hustling, trying to decipher the rules, carving a place out for themselves in the new China. Predictably, the result is a glorious mess. Westerners are fascinated with news coming out of China, but in general, most such reporting focuses on the country's economy (growth rates, infrastructure, trade deficits, currency valuation, globalization, etc.), social issues (human rights, income inequality, diseases such as avian flu, SARS, and HIV/Aids, the traditional Chinese culture, mainstream social trends, etc.), and the current government (the workings of the CCP, its response to social unrest, etc.). Westerners hear much about China's booming economy and its role as the next global superpower from the mainstream media, but they know less about the young people who make up China's varied and fascinating subcultures. In *China Underground*, Mexico introduces young western readers to their Chinese counterparts, highlighting an unfamiliar side of China: today's varied youth cultures, which are both fascinating and under-exposed.

Readers are introduced to a wannabe rock star from the desert of Xinjiang, trying to make it big in Shanghai; a disillusioned journalist; a budding screenwriter; a vagabond ladies' man; a straight-A student at China's best university; a Chinese mafia kingpin; a punk band trying their best to stay relevant; a prostitute; the world's most polluted city; Beijing's drug-fueled club scene, and many others.

Beijing Doll Chun Sue,2004-08-03 Banned in China for its candid exploration of a young girl's sexual awakening yet widely acclaimed as being the first novel of 'tough youth' in China (Beijing Today), Chun Sue's novel cuts a daring path through China's rock-and-roll subculture. This cutting edge novel—drawn from the diaries the author kept throughout her teenage years—takes readers to the streets of Beijing where a disaffected generation spurns tradition for lives of self expression, passion, and rock-and-roll. Chun Sue's explicit sensuality, unflinching attitude towards sex, and raw, lyrical style break new ground in contemporary Chinese literature.

Red Azalea Anchee Min,2012-11-05 The acclaimed memoir from the bestselling author of *Empress Orchid* 'Historically remarkable ... intensely moving' SUNDAY TIMES 'The book sings. It is a small masterpiece' VOGUE Born into a devoutly Maoist family in 1950s Shanghai and forced to work on a communal farm from the age of seventeen, Anchee Min found herself in an alienating and hostile political climate, where her only friendships were perilous and intense. Both candid and touching, this compelling memoir documents her isolation and illicit love against the backdrop of China's Cultural Revolution. From her coming of age in the Red Guard to her recruitment into Madame Mao's burgeoning industry of propaganda movies, *Red Azalea* explores the secret sensuality of a repressive society with elegance and honesty.

Sustaining Activism Jeffrey W. Rubin,Emma Sokoloff-Rubin,2013-02-18 In 1986, a group of young Brazilian women started a movement to secure economic rights for rural women and transform women's roles in their homes and communities. Together with activists across the country, they built a new democracy in the wake of a military dictatorship. In *Sustaining Activism*, Jeffrey W. Rubin and Emma Sokoloff-Rubin tell the behind-the-scenes story of this remarkable movement. As a father-daughter team, they describe the challenges of ethnographic research and the way their collaboration gave them a unique window into a fiery struggle for equality. Starting in 2002, Rubin and Sokoloff-Rubin traveled together to southern Brazil, where they interviewed activists over the course of ten years. Their vivid descriptions of women's lives reveal the hard work of sustaining a social movement in the years after initial victories, when the political way forward was no longer clear and the goal of remaking gender roles proved more difficult than activists had ever imagined. Highlighting the tensions within the movement about how best to effect change, *Sustaining Activism* ultimately shows that democracies need social movements in order to improve people's lives and create a more just society.

Blockchain Chicken Farm Xiaowei Wang,2020-10-13 A New York Times Book Review Editors' Choice. Selected for the 2023 National Book Foundation's Science + Literature Program. A brilliant and empathetic guide to the far corners of global

capitalism. --Jenny Odell, author of *How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world* In *Blockchain Chicken Farm*, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous “Sinofuturist” recipes that frame meals as they transform under new technology, *Blockchain Chicken Farm* is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. *FSG Originals x Logic* dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech’s reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry’s many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

The Corpse Walker Liao Yiwu, 2009-05-05 *The Corpse Walker* introduces us to regular men and women at the bottom of Chinese society, most of whom have been battered by life but have managed to retain their dignity: a professional mourner, a human trafficker, a public toilet manager, a leper, a grave robber, and a Falung Gong practitioner, among others. By asking challenging questions with respect and empathy, Liao Yiwu managed to get his subjects to talk openly and sometimes hilariously about their lives, desires, and vulnerabilities, creating a book that is an instance par excellence of what was once upon a time called “The New Journalism.” *The Corpse Walker* reveals a fascinating aspect of modern China, describing the lives of normal Chinese citizens in ways that constantly provoke and surprise.

Gao Village Mobo C. F. Gao, 1999-01-01 This book is about Gao Village, in Jiangxi province, where the author was born and brought up, leaving when he was twenty-one to study English at Xiamen University. Since emigrating to Australia in 1990, he has returned every year to Gao Village, where his brother still lives. Several accounts of village life in China have been published, but all have been by Western or urban Chinese scholars. Mobo Gao's account is in every sense one from the inside. Though written as an academic work, it does not eschew personal stories and experiences relevant to the themes addressed. These cover a forty-year period and fall into four distinct themes; the village before and after land reform; the commune system; the dismantling of the communes; and the unfolding impact of the market economy, including increased

migration to urban areas, from the late 1980s onwards.
