Far from Mogadishu Shirin Ramzanali Fazel,2016-04-15 There was time when my country was the country of fairy tales, a country where every child would want to grow and play. This is the story of the author's physical and emotional journey from her war-torn homeland, Somalia. Some time after the military coup in 1969 Shirin left Mogadishu and moved to Italy to make a new life and home for herself and her family. Since then she has crossed continents and lived in several cities, facing the challenge of integrating with many different kind of society before settling in England in 2010. This book encapsulates her reflections on the Somali diaspora.

To Be a Machine Mark O'Connell,2018-01-16 “This gonzo-journalistic exploration of the Silicon Valley techno-utopians’ pursuit of escaping mortality is a breezy romp full of colorful characters.” —New York Times Book Review Transhumanism is a movement pushing the limits of our biology—of our senses, intelligence, and lifespans—with technology. Its supporters have reached a critical mass and now include some of the biggest names in Silicon Valley and beyond, among them Peter Thiel, Elon Musk, and Ray Kurzweil. In this provocative and eye-opening account, journalist Mark O’Connell explores the staggering (and terrifying) possibilities that present themselves when you think of your body as an outmoded device. He visits the world’s foremost cryonics facility to witness how some have chosen to forestall death, discovers an underground collective of biohackers boosting their senses by implanting electronics under their skin, and meets with members of a team urgently investigating how to protect mankind from rogue artificial superintelligence. In investigating what it means to be a machine, O’Connell shines a light on our ancient desire to transcend the animal condition—and offers a surprising meditation on what it means to be human.

Pragmatism and Social Theory Hans Joas,1993-03-15 Rising concerns among scholars about the intellectual and cultural foundations of democracy have led to a revival of interest in the American philosophical tradition of pragmatism. In this book,

Hans Joas shows how pragmatism can link divergent intellectual efforts to understand the social contexts of human knowledge, individual freedom, and democratic culture. Along with pragmatism's impact on American sociology and social research from 1895 to the 1940s, Joas traces its reception by French and German traditions during this century. He explores the influences of pragmatism—often misunderstood—on Emile Durkheim's sociology of knowledge, and on German thought, with particularly enlightening references to its appropriation by Nazism and its rejection by neo-Marxism. He also explores new currents of social theory in the work of Habermas, Castoriadis, Giddens, and Alexander, fashioning a bridge between Continental thought, American philosophy, and contemporary sociology; he shows how the misapprehension and neglect of pragmatism has led to systematic deficiencies in contemporary social theory. From this skillful historical and theoretical analysis, Joas creates a powerful case for the enduring legacy of Peirce, James, Dewey, and Mead for social theorists today.

Postdramatic Theatre Hans-Thies Lehmann, 2006-09-27 Newly adapted for the Anglophone reader, this is an excellent translation of Hans-Thies Lehmann's groundbreaking study of the new theatre forms that have developed since the late 1960s, which has become a key reference point in international discussions of contemporary theatre. In looking at the developments since the late 1960s, Lehmann considers them in relation to dramatic theory and theatre history, as an inventive response to the emergence of new technologies, and as an historical shift from a text-based culture to a new media age of image and sound. Engaging with theoreticians of 'drama' from Aristotle and Brecht, to Barthes and Schechner, the book analyzes the work of recent experimental theatre practitioners such as Robert Wilson, Tadeusz Kantor, Heiner Müller, the Wooster Group, Needcompany and Societas Raffaello Sanzio. Illustrated by a wealth of practical examples, and with an introduction by Karen Jürs-Munby providing useful theoretical and artistic contexts for the book, *Postdramatic Theatre* is an historical survey expertly combined with a unique theoretical approach which guides the reader through this new theatre landscape.

The Spirit of Utopia ,2000-08 I am. We are. That is enough. Now we have to start. These are the opening words of Ernst Bloch's first major work, *The Spirit of Utopia*, written mostly in 1915-16, published in its first version just after the First World War, republished five years later, 1923, in the version here presented for the first time in English translation. *The Spirit of Utopia* is one of the great historic books from the beginning of the century, but it is not an obsolete one. In its style of thinking, a peculiar amalgam of biblical, Marxist, and Expressionist turns, in its analytical skills deeply informed by Simmel, taking its information from both Hegel and Schopenhauer for the groundwork of its metaphysics of music but consistently interpreting the cultural legacy in the light of a certain Marxism, Bloch's *Spirit of Utopia* is a unique attempt to rethink the history of Western civilizations as a process of revolutionary disruptions and to reread the artworks, religions, and philosophies of this tradition as incentives to continue disrupting. The alliance between messianism and Marxism, which

was proclaimed in this book for the first time with epic breadth, has met with more critique than acclaim. The expressive and baroque diction of the book was considered as offensive as its stubborn disregard for the limits of disciplines. Yet there is hardly a discipline that didn't adopt, however unknowingly, some of Bloch's insights, and his provocative associations often proved more productive than the statistical account of social shifts. The first part of this philosophical meditation--which is also a narrative, an analysis, a rhapsody, and a manifesto--concerns a mode of self-encounter that presents itself in the history of music from Mozart through Mahler as an encounter with the problem of a community to come. This we-problem is worked out by Bloch in terms of a philosophy of the history of music. The self-encounter, however, has to be conceived as self-invention, as the active, affirmative fight for freedom and social justice, under the sign of Marx. The second part of the book is entitled Karl Marx, Death and the Apocalypse. I am. We are. That's hardly anything. But enough to start.

Teoría Y Praxis: Colección de Clásicos Del Pensamiento Universal "carrascalejo de la Jara." Immanuel Kant, 2004 Not Provided by Publisher.

Spiritual Friendship Saint Aelred (of Rievaulx), 1974 Follows and completes Aelred's earlier treatise on love, The Mirror of Charity. In it he reflects on the theories of friendship propounded by the great stoic philosophic Cicero. A humanist and a Christian monk, Aelred advocated friendship on both the natural and the supernatural plane. Frankness and not flattery, generosity and not gain, patience in correction and constancy in affection he saw as the marks of a genuine friendship.

The Origins of Religions Julien Ries, 1994 The Origins of Religions opens with a look at prehistoric man's first steps on the planet, then moves on to examine the cultic rituals, artistic expression, and expanding mythology that developed throughout the Paleolithic and Neolithic epochs.

The Homeric Gods Walter Friedrich Otto, 2014 In many respects, this book is considered to be the best guide ever written on Homeric religion. The analysis by W. F. Otto, while being very careful in terms of interpretation, denotes an open consonance of the author with the spirit - sometimes brutal and, for our mentality, immoral - of Greek polytheism. A thrilling and amazing journey to Olympus. This is a new edition of the Pantheon Books (New York) 1952 publication.

Religion without God Ronald Dworkin, 2013-10-01 In his last book, Ronald Dworkin addresses timeless questions: What is religion and what is God's place in it? What are death and immortality? He joins a sense of cosmic mystery and beauty to the claim that value is objective, independent of mind, and immanent in the world. Belief in God is one manifestation of this view, but not the only one.

Overcoming Religious Illiteracy D. Moore, 2007-10-02 In *Overcoming Religious Illiteracy*, Harvard professor and Phillips Academy teacher Diane L. Moore argues that though the United States is one of the most religiously diverse nations in the world, the vast majority of citizens are woefully ignorant about religion itself and the basic tenets of the world's major

religious traditions. The consequences of this religious illiteracy are profound and include fueling the culture wars, curtailing historical understanding and promoting religious and racial bigotry. In this volume, Moore combines theory with practice to articulate how to incorporate the study of religion into the schools in ways that will invigorate classrooms and enhance democratic discourse in the public sphere.

Social Theory Hans Joas, Wolfgang Knöbl, 2009-07-09 Social theory is the theoretical core of the social sciences, clearly distinguishable from political theory and cultural analysis. This book offers a unique overview of the development of social theory from the end of the Second World War in 1945 to the present day. Spanning the literature in English, French and German, it provides an excellent background to the most important social theorists and theories in contemporary sociological thought, with crisp summaries of the main books, arguments and controversies. It also deals with newly emerging schools from rational choice to symbolic interactionism, with new ambitious approaches (Habermas, Luhmann, Giddens, Bourdieu), structuralism and antistructuralism, critical revisions of modernization theory, feminism and neopragmatism. Written by two of the world's leading sociologists and based on their extensive academic teaching, this unrivalled work is ideal both for students in the social sciences and humanities and for anyone interested in contemporary theoretical debates.
