Theoretical Perspectives for Direct Social Work Practice Peter Lehmann PhD, LCSW, 2007-10-22 Praise for the first edition Finally, a social work practice text that makes a difference! This is the book that you have wished for but could never find. Although similar to texts that cover a range of practice theories and approaches to clinical practice, this book clearly has a social work frame of reference and a social work identity. --Gayla Rogers, Dean of the Faculty of Social Work, University of Calgary The major focus of this second edition is the same; to provide an overview of theories, models, and therapies for direct social work practice, including systems theory, attachment theory, cognitive-behavioral theory, narrative therapy, solution-focused therapy, the crisis intervention model, and many more. However, this popular textbook goes beyond a mere survey of such theories. It also provides a framework for integrating the use of each theory with central social work principles and values, as well as with the artistic elements of practice. This second edition has been fully updated and revised to include: A new chapter on Relational Theory, and newly-rewritten chapters by new authors on Cognitive-Behavioral Theory, Existential Theory, and Wraparound Services New critique of the Empirically Supported Treatment (EST) movement Updated information on the movement toward eclecticism in counseling and psychotherapy A refined conceptualization of the editors' generalist-eclectic approach

Theory & Practice in Clinical Social Work Jerrold R. Brandell, 2010-02-16 Today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever-widening domain of responsibility to overcome them. Theory and Practice in Clinical Social Work is the authoritative handbook for social work clinicians and graduate social work students, that keeps pace with rapid social changes and presents carefully devised methods, models, and techniques for responding to the needs of an increasingly diverse clientele. Following an overview of the principal frameworks for clinical practice, including systems theory, behavioral and cognitive theories, psychoanalytic

theory, and neurobiological theory, the book goes on to present the major social crises, problems, and new populations the social work clinician confronts each day. *Theory and Practice in Clinical Social Work* includes 29 original chapters, many with carefully crafted and detailed clinical illustrations, by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations. Collectively, these leading authors have treated nearly every conceivable clinical population, in virtually every practice context, using a full array of treatment approaches and modalities. Included in this volume are chapters on practice with adults and children, clinical social work with adolescents, family therapy, and children's treatment groups; other chapters focus on social work with communities affected by disasters and terrorism, clinical case management, cross-cultural clinical practice, psychopharmacology, practice with older adults, and mourning and loss. The extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike.

Clinical Practice with Families Michael Rothery, George Enns, 2014-01-21 Encourage creative change in troubled families! *Clinical Practice with Families: Supporting Creativity and Competence* presents the most important and useful contemporary ideas in family therapy from many diverse traditions. By organizing eclectic concepts within one basic, powerful framework, it makes these ideas more accessible and effective in practice. Instead of exploring these ideas in the abstract, *Clinical Practice with Families* illustrates them with in-depth case examples that include detailed studies of the client family's history and traditions, extensive analyses of the family system, and actual dialogue from sessions, along with the therapist's comments on shifting alliances and other unspoken occurrences. No other technique could better demonstrate the practical integration of therapeutic skills and concepts to meet the clients' needs. *Clinical Practice with Families* offers insight and ideas for practicing family therapists in such essential areas as: negotiating flexible, appropriate boundaries between family members and between yourself and your clients constructing ecomaps of a client's support systems and stressors identifying four kinds of supports helping the client reinterpret family traditions enabling clients to break the pattern of old narratives encouraging clients to set realistic, achievable goals *Clinical Practice with Families* offers a powerful set of techniques and ideas in a clear, understandable framework. Illustrated with helpful charts and figures, it offers senior students and practicing family therapists an opportunity to take a structured approach to contemporary theory and understand its implications for practice.

Theoretical Perspectives for Direct Social Work Practice Kristin W. Bolton, PhD, MSW, J. Christopher Hall, PhD, LCSW, Peter Lehmann, PhD, LCSW, 2021-05-12 This new and fully updated edition of the best-selling theories text for social workers introduces social work students and practitioners to a wide variety of theories for direct social work practice. The Generalist Approach to Conflict Resolution Toran Hansen, 2012-12-21 This book outlines the generalist approach to conflict resolution. The approach was inspired by the generalist approach to social work but has now emerged in the fields of conflict resolution and peace studies. Essentially, the approach considers conflict resolution practice and scholarship very broadly. Generalist scholarship and practice are contrasted against specialized ways of conducting conflict resolution, whereby practitioners become well versed in one mode of practice or a specific theoretical orientation to scholarship. Several theories provide a foundation for this inclusive approach: conflict transformation, eco-systemic scholarship, the strengths perspective, and a new theory of social conflict, the theory of differences. The generalist approach is intended to provide a way for conflict resolution and peace studies scholar-practitioners to help diverse parties address complex conflicts at various levels (personal to international). Generalist scholar-practitioners assist parties to comprehensively and holistically address these conflicts, in a multi-layered, multi-level fashion, but they must be comfortable with ambiguity, monitor intervention complexity, and give parties control over how their conflicts are addressed. Ultimately, this may make parties more committed to their conflict interventions and outcomes.

Social Justice and Social Work Michael J. Austin, 2013-03-26 Social Justice and Social Work: Rediscovering a Core

Value of the Profession introduces and connects social justice to the core values of social work across the curriculum. This unique and timely book, edited by Michael J. Austin, presents the history and philosophy that supports social justice and ties it to ethical concepts that will help readers understand social justice as a core social work value. The book further conveys the importance of amplifying client voice; explores organization-based advocacy; and describes how an understanding of social justice can inform practice and outlines implications for education and practice.

Theoretical Perspectives for Direct Social Work Practice Nick Coady, PhD, Peter Lehmann, PhD, LCSW, 2016-05-15 This expanded third edition of a popular textbook provides a completely revised and updated overview of the theories, models, and therapies that inform direct social work practice. The text is grounded in generalist social work principles and values and promotes a problem-solving model of social work practice as a framework for the eclectic use of theory, as well as for integrating the artistic, reflective elements of practice. It provides in-depth coverage of select psychodynamic, cognitive-behavioral, humanistic, critical, and postmodern theories. The third edition features a new section on Critical Theories, where a new chapter on Empowerment Theory is included with a completely revised chapter on Feminist Theory. A new chapter on Strengths-based Social Work has been added to the section on meta-theories for social work practice. Other new chapters include Emotion-focused Therapy and Collaborative Therapy. These revisions are based on suggestions from an extensive survey of professors. New to the Third Edition: • A new section on Critical Theories • New chapters on Strengths-based Social Work, Emotion-focused Therapy, Empowerment Theory, and Collaborative Therapy • Updated research on the debate about the importance of theory/technique versus common (e.g., relationship) factors, and on the critique of the empirically supported treatment movement Key Features: • Grounds direct practice firmly in the principles and values of generalist social work • Promotes a problem-solving model of social work as a flexible structure for integrating the eclectic use of theory with the artistic, reflective elements of practice • Organizes direct practice theories into like groupings and provides an overview of the main characteristics of each grouping • Provides in-depth coverage of topics in a clear, logical, and consistent format • Includes editors and contributors from the U.S. and Canada

Social Workers' Desk Reference Kevin J. Corcoran, Albert R. Roberts, 2015 In the first and second editions of the Social Workers' Desk Reference, the changes that were occurring in social work practice, education, and research were highlighted and focused upon. This third edition continues in the same tradition and continues to respond to the changes occurring in society and how they are impacting the education, research, and practice of social work as a whole.

Social Work and the Environment Michael Kim Zapf, 2009 This ground-breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions, and offers a new and attractive foundational metaphor for social work. The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility, identity,

and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century. Why is that a profession with a declared focus on person-in-environment has been so silent on the environmental crisis? Mainstream social work theory has narrowed the understanding of environment to include merely the social environment, but this approach is no longer sufficient for participation in multi-disciplinary efforts to tackle urgent environmental issues. Transformative notions of responsibility, identity, and stewardship have been developed on the fringes of our professional community: rural/remote social workers, Aboriginal social workers, and international and spiritual social workers. They must now move to the core of the profession.

Rural Social Work T. Laine Scales, Calvin L. Streeter, H. Stephen Cooper, 2013-07-03 A thoughtful text integrating strengths, assets, and capacity-building themes with contemporary issues in rural social work practice Now in its second edition, *Rural Social Work* is a collection of contributed readings from social work scholars, students, and practitioners presenting a framework for resource building based on the strengths, assets, and capacities of people, a tool essential for working with rural communities. This guide considers methods for social workers to participate in the work of sustaining rural communities. Each chapter features a reading integrating the themes of capacity-building and rural social work; discussion questions that facilitate critical thinking around the chapter; and suggested activities and assignments. *Rural Social Work, Second Edition* explores: Important practice issues in rural communities, including the challenges of working with stigmatized populations such as gay, lesbian, bisexual, and transgendered people, the homeless, and people living with HIV/AIDS Practice models that hold special promise for rural social workers, including evidence-based practice and community partnership models Newer research tools such as asset mapping, social network analysis, concept mapping, and Geographic Information Systems (GIS) Exploring how social workers can integrate the tremendous resources that exist in rural communities into their practice, *Rural Social Work, Second Edition* provides a solid introduction to the complex, challenging, and rewarding work of building and sustaining rural communities.

Social Work Practice with LGBTQIA Populations Claire L. Dente, 2018-10-11 *Social Work Practice with LGBTQIA Populations* provides an overview of key issues for social workers working with LGBTQIA clients. Each chapter considers clients' experiences in different social and interpersonal contexts. This text encourages students to think critically about the barriers and discriminations clients might face in their lives and how social workers can be equipped to address these issues. Students are challenged to develop approaches that extend support to these clients and that remove structural barriers that clients face within the systems they encounter. Utilizing intersectionality theory, students will gain an understanding of the risks and protective factors unique to this population in social work contexts.

101 Social Work Clinical Techniques Francis J. Turner, William Rowe, 2013-05-08 The purpose of the book is to enhance the concept of Technique in the teaching and practice of Social Work. Over the years Technique has not been stressed as a

part of practice even though the actual practice of Social Work consists of the utilization of techniques in addition to theory and the process of assessment and diagnosis. The book seeks to achieve its goal in four ways. It addresses the way the concept of Technique has or has not been used over the years. It addresses the need for a clear definition of technique. It analysis the qualities that Technique should have at this point in our history of clinical practice. It then formulates and presents a definition of technique for our thesis based on this definition. It then presents a brief discussion of 101 Techniques discussed in contemporary literature by discussing each one's place in practice a bit about its history and necessary knowledge skills to use responsibly. It addresses the latter by grouping a level of risk involved in its utilization.

Critical Social Work Studies in South Africa Annaline Keet, Nevashnee Perumal, Veonna Goliath, 2022-11-18 *Critical Social Work Studies in South Africa: Prospects and Challenges* is a convergence of 18 critical Black African minds from various South African universities, who challenge the hegemonic status quo in society. In this collection of conceptual and empirical papers, each author tells a compelling story with common themes that are firmly rooted in advancing decolonial knowledge. This book covers pertinent issues in social work practice and education, ranging from rethinking parenting roles, utopian notions of family, mediation practice in relation to unmarried fathers to race and landlessness. The book contains practical suggestions in respect of decolonising the self as well as social work curricula in higher education. In addition *Critical Social Work Studies in South Africa: Prospects and Challenges* delves into trusting relationships as cornerstones to effective supervision, centring African spirituality in social work, economic emancipation of Black women, cultural trauma as well as drug abuse prevention. Based on the range of themes, this book would benefit social work practitioners, students, academics, social activists and anyone who is curious to understand how decoloniality may be operationalised in social work.

Artistry in Social Work Practice Max Siporin, 2009-03 *Artistry in Social Work Practice* deals with the aesthetics of helping practice. There is a focus on the features of artistry that give effectiveness to the work of assisting people with their problems in social living and improving their personal and communal welfare. Consideration is given to such elements as the use of self, form, relationships, creativity, communication, style, performance, and to aesthetic and spiritual experiences as part of the helping process. This book is an alert to the much neglected but crucial artistic aspect of social work. Max Siporin, a long time innovator in thinking about social work, calls practitioners to engage more deeply the aesthetic, creative, dynamic, symbolic, and spiritual qualities of our helping relationships and transformative activities. Ed R. Canda This is a book that has been badly needed in social work. Siporin has given the artistic dimension of social work practice its just due. It is a practice that can be done with a creativity, skill, style, and wisdom which achieve a helping experience that is a thing of beauty. Ed Sherman

Competency in Generalist Practice Elizabeth Moore Plionis, 2007 *Competency in Generalist Practice* features an original and timely social work practice model that will transform the way generalist and evidence-based practice are taught.

Writing with outstanding clarity and sense of purpose, Elizabeth Moore Plionis guides students in the use of a decision tree that will help them take a conscious, theory- and evidence-based approach to solving the complex problems they will face as social workers. This book is a concise but powerful tool for learning how to become an effective social work practitioner.*Presents direct and indirect practice in alternate chapters rather than separate volumes, comparing and contrasting them in an easy-to-grasp manner*Includes chapters on topics rarely found in comparable texts, including professional regulatory and fiduciary responsibilities, case and class advocacy, and service delivery to impoverished families and children*Covers important macro practice skills such as non-clinical communication, crisis management, and the use of groups in policy, management, and community and social change*Features flow charts, decision schemas, and examples of process recordings that vividly illustrate the material*Incorporates both traditional and new theories into the discussion, linking them to technique and putting them in the context of direct and indirect methods at each step of the decision hierarchy*Supplemented by a companion website that contains slides and a teachers guide for download

Criminalized Mothers, Criminalizing Mothering Joanne Minaker,2015-02-01 As the fastest growing prison population worldwide, more and more women are living in cages and most of them are mothers. This alarming trend has huge ramifications for women, children and communities across the globe. Empathy for mothers behind bars and concern for criminalized mothers in the community is in short supply. Mothers are criminalized for their vulnerabilities and for making unpopular but difficult choices under material and ideological conditions not of their own choosing. *Criminalized Mothers, Criminalizing Mothering* shines a spotlight on mothers who are, by law or social regulation, criminalized and examines their troubles and triumphs. This book offers a critical and compassionate lens on social (in)justice, mass incarceration, and collective miseries women experience (i.e., economic inequality, gendered violence, devalued care work, lone-parenting etc.). This book is also about mothers' encounters with systems of control, confinement, and criminalization, but also their experiences of care.

Playbuilding as Arts-Based Research Joe Norris, Kevin Hobbs, Mirror Theatre, 2024-04-29 The new edition of *Playbuilding as Arts-Based Research* details how playbuilding (creating an original performative work with a group) as a methodology has developed in qualitative research over the last 15 years. The second edition substantially updates the award-winning first edition by making connections to current research theories, providing complete scripts with URL links to videos, and including a new section with interviews with colleagues. Chapter 1 provides an in-depth discussion of the epistemological, ontological, axiological, aesthetic, and pedagogic stances that playbuilding takes, applying them to research in general. The value of a playful, trusting atmosphere; choices of style, casting, set, and location in representing the data;

and pedagogical theories that guide participatory theatre are highlighted. Chapter 2 discusses how Mirror Theatre generates data, structures dramatic scenes, and conducts live and virtual participatory workshops. Chapter 3 is a thematized account of interviews with 23 colleagues who employ variations of playbuilding that show how playbuilding can be applied in a wide range of contemporary contexts and disciplines. Chapters 4 through 9 describe six projects that address topics of drinking choices and mental health issues on campus, person-centred care, homelessness, the transition to university, and co-op placements. They include both a theme and a style analyses and workshop ideas. Chapter 10, new to this edition, concludes with quantitative and qualitative data from audiences attesting to the efficacy of this approach. This is a fascinating resource for qualitative researchers, applied theatre practitioners, drama teachers, and those interested in social justice, who will appreciate how the book adeptly blends theory and practice, providing exemplars for their own projects.

Motivational Interviewing Jacqueline Corcoran, 2016-06-07 Motivational interviewing is a person-centered, collaborative method for exploring ambivalence and enhancing motivation to change. Compatible with social work values and ethics, it is applicable to the wide range of problems and helping situations with which direct practice social workers are involved. One such by-product of working with vulnerable and oppressed clients -- people to whom social work is committed -- is that social workers are often employed in public agencies with people who have been ordered by the courts to attend services. In order to work successfully with mandated populations, helpers have to consider how they will access those who initially appear unmotivated to change. Motivational interviewing provides the stance and the tools to be able to achieve this effectively, while maintaining human dignity and respect of the individual. And although it can be used as a stand-alone model, motivational interviewing has also been employed as an initial intervention so that people become more motivated to participate in other services; it can be used flexibly on its own or integrated with other, more action-oriented interventions. This workbook, with its infusion of examples and numerous exercises, will help students and beginning practitioners develop the knowledge and skills to work collaboratively with clients and to build their motivation to change problem behaviors.
